

***Grand Executive Report
for
Intellectual Disabilities
and
Miscellaneous Charities
September 2011***

Summer is over and it's time to get to work. During the Supreme Session, in Jacksonville, we listened to a presentation from ASHA (American Special Hockey Association). It seems like a natural for Canadian Special athletes. I think we can really do something with this program. Over the next few months I will be contacting various hockey associations to get some feed back on what there involvement might be and promoting this idea to the local councils.

I will be sending out a monthly letter to councils to give some ideas on year round programs to support individuals with Intellectual Disabilities from our own councils.

I will also be promoting the position of Volunteer Coordinator to help in getting the message out.

Miscellaneous Charities are developed locally and we do a lot of good work. I am hoping that each club that appoints a Volunteer Coordinator will get the recognition and success that they deserve.

Respectfully submitted
Jack Blenkinsop
Chair Intellectual Disability and
Miscellaneous Charities
